

Letter of reference

Brussels, August 31th 2021

Dear;

It is a true pleasure to be Tiago Ferreira's Front-End Teacher. I am happy to write this spontaneous letter of recommendation to accompany his application for a web developer's job.

Tiago is praised for his constant will to discover and to improve. He is more than willing to share his JavaScript and React knowledge with other students. I am very happy about his discipline and organization. He is a man of his word and truly loves to code.

Tiago is one of the few students that understand the essence of code making explaining it to him a lot easier. He is polite, on time and will be an asset to your company.

You are more than welcome to call me to ask more about Tiago and will be delighted if he would become one of your staff members.
